SPECIFICATION

Please replace paragraph [0031] with the following:

[0031] It should be understood that object generator 200 can be embodied in
any computer-readable medium for use by or in connection with an instruction
execution system, apparatus, or device, such as a computer-based system,
processor-containing system, or other system that can fetch the instructions from
the instruction execution system, apparatus, or device, and execute the
instructions. A "computer-readable medium" can be any methods and resources
for storing, communicating, propagating, or transporting a program for use by or
in connection with the instruction execution system, apparatus, or device. ~~The
computer-readable medium can be, for example but not limited to, an electronic,
magnetic, optical, electromagnetic, infrared, or semiconductor system,
apparatus, device, or propagation medium now known or later developed~~. Note
that the computer-readable medium could even be paper or another suitable
medium upon which the program is printed, as the program can be electronically
captured, via for instance optical scanning of the paper or other medium, then
compiled, interpreted, or otherwise processed in a suitable manner if necessary,
and then stored in a computer memory.
